Alexander James Alvarez

GOES BY Alex

DATE OF BIRTH March 14, 2004

INSURANCE / MEDICAID Anthem HealthKeepers through Dad's employer; Virginia Medicaid — CCC Plus waiver.

PREFERRED HOSPITAL Inova Fairfax — they have his records.

DIAGNOSES

Autism spectrum disorder; epilepsy (focal seizures); anxiety

ALLERGIES

Penicillin — hives and swelling.

CURRENT MEDICATIONS

Levetiracetam

500 mg, morning and night — Seizure control

Sertraline

50 mg, morning — Anxiety

IN AN EMERGENCY — PROTOCOL

Seizure: start timing. On his side, nothing in his mouth. Over 3 minutes: rescue med in the red pouch, call 911.

HOW THEY COMMUNICATE

Speaks in short sentences; uses an AAC app when overwhelmed.

YES / NO

Yes is a nod plus 'yeah'. No is walking away.

SIGNS OF PAIN OR ILLNESS

Goes quiet and presses on the spot. Skipped meals mean something hurts.

IF THEY BECOME OVERWHELMED

TRIGGERS

Fire alarms. Plans changing without warning. The word 'later'.

WHAT HELPS

Lower your voice. One person talks. Weighted blanket. Wait ten minutes.

AVOID — MAKES IT WORSE

Touching him, crowding, raised voices, rapid questions.
